

# TEZGÜLLER MAKİNA

Tezgüller was found in 1974. Tezgüller company has been manufacturing concrete block machines, concrete pipe machines and all their equipments (Moulds, concrete mixers, conveyor belts, concrete distribution hoppers). The company produced wide variety of engineering products refer to concrete construction section of the industry. Now the manufacturing has been doing in our modern factory (10000m2 closed production area). In such a short time broadened its manufacturing types and nowadays we have a wide customer net to Europe from Asia and Middle East to Africa. Our machines and moulds are being used in 28 different countries. All concrete block moulds have been prepared fully automatically CNC machines. We can serve our customers with full of competitive and economic ways. It will be very useful to your company to consult us when you need a concrete product equipment or new concrete plant. An experienced design team is ready to negotiate with your company in your projects.

## PM 508 CONCRETE BLOCK MACHINE

# PM 508 CONCRETE BLOCK MACHINE

## TEZGÜLLER MAKİNA

> TECHNICAL SPECIFICATIONS

### TECHNICAL PROPERTIES :

Vibration Motor ..... : Weighted from outside  
Lubrication ..... : Gress oil  
Vibration Motor ..... : 2800rpm - 2Pcs x 4kw  
Total Energy Power ..... : 20Kw

### HYDRAULIC PROPERTIES:

Pump ..... : 50lt/min.  
Working Pressure ..... : 120Bar  
Hydraulic Tank ..... : 250lt  
Hydraulic Motor ..... : 1400rpm - 11kw

### PRODUCTION PROPERTIES:

Mode of Control ..... : Manuel  
Production/Cycle ..... : 20-35 seconds  
Pallet Capacity ..... : 15 pieces  
Pallet Size ..... : 70cm x115cm  
Mould Weight ..... : 500.-Kg  
Bunker Volume ..... : 1m<sup>3</sup>

### MACHINE DIMENSIONS:

Width ..... : 2.0m  
Height ..... : 2.8m  
Lenght ..... : 7.2m  
Machine Weight ..... : 7.5ton

### MACHINE WORKING AREA:

Width ..... : 12m  
Height ..... : 6m  
Lenght ..... : 20m

### PM 508 CONCRETE BLOCK MACHINE:

- PM 508 has a double buncer
- PM 508 can produce double layer stone
- PM 508 can produce concrete products from 50mm thickness to 300mm.
- PM 508 can produce 0.5m<sup>2</sup> concrete block at one press
- PM 508 has a property of rapid mould change system
- PM 508 is a manual machine and easy to control
- PM 508 has a property of rapid installation and dismantle
