

CONCRETE BASE MANHOLE MACHINE

TEZGÜLLER MAKİNA

CONCRETE BASE MANHOLE MACHINE

TECHNICAL PROPERTIES :

Vibration Type: Vibromotor
Vibration Motor: Weighted from outside
Lubrication: Gress oil
Vibration Motors: 2800rpm - 2Pcs x 2.2Kw
Total Energy Power: 7Kw

PRODUCTION PROPERTIES:

Mode of Control: Manuel
Production/Cycle: Depends of the diameter of pipe
Bunker Volume: 1.5m³

MACHINE DIMENSIONS:

Width: 2.5m
Height: 2.8m
Length: 2.5m

MACHINE WORKING AREA:

Width: 3.5m
Height: 2.8m
Length: 5.6m

BASE MANHOLE MACHINE:

- Base Manhole Machine has a single bunker
- Base Manhole Machine has a vibration table and dimensions are 1.8m x 1.8m
- Base Manhole Machine you can produce 800mm base manholes up to 1200mm base manholes
- Base Manhole Machine you do need crane to take the product
- Base Manhole Machine is a manual machine and easy to control

Tezgüller was founded in 1974. Tezgüller company has been manufacturing concrete block machines, concrete pipe machines and all their equipments (Moulds, concrete mixers, conveyor belts, concrete distribution hoppers). The company produced wide variety of engineering products refer to concrete construction section of the industry. Now the manufacturing has been doing in our modern factory (10.000m² closed production area). In such a short time broadened its manufacturing types and nowadays we have a wide customer net to Europe from Asia and Middle East to Africa. Our machines and moulds are being used in 28 different countries. All concrete block moulds have been prepared fully automatically CNC machines. We can serve our customers with full of competitive and economic ways. It will be very useful to your company to consult us when you need a concrete product equipment or new concrete plant. An experienced design team is ready to negotiate with your company in your projects.
